# Coray Photography & Design Wedding Packages

Coray Photography & Design is known all over the Wasatch Front and beyond for providing:

1. Warm, informal, very personal portraits
2. Outstanding wedding day coverage
3. Gorgeous storybook flush-mount albums
4. Fair, flexible package pricing

To see our on-line portfolio, please visit our website: [www.corayphoto.com](http://www.corayphoto.com). The purpose of this brochure is to detail our package pricing that just got even more flexible.

Whether you are looking for a top-of-the-line, custom, flush-mount album, or a still-custom, but more moderately-priced, alternative album, we have a solution for you.

Maybe you don't need an album at all and just want enlargements of some of the key images. Or maybe you would prefer to skip the printed output completely and just get the digital negatives on disk. No matter your needs, we can help.

Our newly-revamped packages were created to maximize flexibility and customization. First, we've built in more credit for enlargements in each package in case you just want prints. Next, if you prefer, we now allow you to get a DVD of all of the digital negatives instead of the enlargements.

Finally, we moved albums completely out of the packages. Now, you just choose the base package that fits your needs, then add the album that best suits you. And if it still doesn't quite fit, we are happy to substitute products of equal value from our a la carte menu of products.

Take a look inside for details. Remember, just pick a base package and add an album. It's easy!

## Picking an Album:

Picking an album will involve three decisions:

1. Style of album (Kingston or self-mount)
2. Dimension (size of pages)
3. Number of pages

### Kingston Albums

You truly have to see and hold one of these "coffee table" style books to appreciate how lovely they are and how effectively they will tell the story of your special day. We'd be happy to meet with you to show you a few samples.

We will build your album in any of three sizes and include as many pages as you feel it deserves. The prices are listed to the right.

That approach, however, is so flexible and open-ended that you might need a few examples to help you get a better feel. Below are some common album sizes that might be appropriate for each package, along with their price. The album covers are a leatherette material and include two lines of imprinting. (A tip about terminology: each "page" has two "sides".)

Package	Pages/Sides	Dimensions	Value
Platinum	16/32	12x12	\$1694
Gold	14/28	10x10	1344
Silver	10/20	10x10	964
Bronze	8/16	10x10	774
Simplicity	6/12	8x8	524

Obviously, the more time you ask us to shoot for you, the more photos we will take, and the bigger the album would normally be. But these are samples only - you could have us make your album as large or small as it needs to be. You could also choose several non-standard cover options if you'd like.

### Self-Mount Albums

If you decide on the more moderately priced "self-mount" albums, you will be able to either save money or get more pages for the same investment. The construction is not quite as deluxe as in the Kingston albums, but is still very nice.

One important difference is that the self-mount albums come in fixed 5-page, 10-page or 15-page versions only. So you have fewer options regarding the number of total pages.

Self-mount albums average 20-25% less than Kingston albums of the same number of pages. So they do represent a significant savings.

Either way, you'll end up with a beautiful keepsake that your family will treasure for many generations.

## Album Pricing

Use these prices for deciding which album you want and how large to make it. Here, you will also find some add-on options not included in the standard packages.

### Kingston Flush Mount Albums:

These 100% custom albums are priced per page and can be custom-built to your specifications.
